HUMAIR SARWAR

Full Stack Web Developer | Multi-Stack Developer | AI-Assisted Development

+92 308 8340373 | humairsarwar956@gmail.com | Islamabad, Pakistan | linkedin.com/in/humair-sarwar | github.com/Humair-Sarwar | humair-portfolio.netlify.app

PROFILE SUMMARY

Results-driven Full Stack Web Developer with over 3 years of hands-on experience designing, developing, and maintaining responsive web applications across modern technology stacks. Proficient in building dynamic frontend interfaces using JavaScript (ES6+), React.js, Next.js, Tailwind CSS, and Bootstrap, paired with scalable backend architectures using Node.js, Express.js, PHP, and Laravel. Experienced in developing RESTful APIs, implementing authentication and role-based access control (RBAC), and managing relational (MySQL) and NoSQL (MongoDB) databases across both PHP/Laravel and MERN ecosystems. Leverages modern AI-assisted development tools—including Claude Code, Google Antigravity, and Google Gemini Pro—to accelerate feature delivery, streamline debugging, and maintain clean, production-ready code.

PROFESSIONAL EXPERIENCE

REACT.JS DEVELOPER — **Veeivs** | May 2026 – July 2026 | Onsite, Islamabad

- Developed and optimized responsive, interactive user interfaces for a Human Resource Management System (HRMS) using React.js, Next.js, Tailwind CSS, and JavaScript (ES6+).
- Built modular, reusable UI components and implemented modern frontend architecture to streamline core HR workflows.
- Integrated RESTful APIs using Axios and managed complex application state and data flow across multiple modules.
- Applied React Hooks and frontend performance optimization techniques to ensure fast rendering and smooth user experiences.
- Collaborated closely with backend engineers and product team members to deliver reliable, user-focused web applications.

LARAVEL DEVELOPER INTERN — **Eziline Software House** | Dec 2025 – Mar 2026 | Onsite, Islamabad

- Developed and maintained full-stack web applications using PHP, Laravel, Blade, JavaScript, and MySQL following MVC architecture.
- Contributed to the Ezitech iPortal enterprise system, implementing hierarchical Role-Based Access Control (RBAC) for Admins, Managers, Supervisors, and Internees.
- Designed relational database schemas, authored Eloquent ORM models, migrations, and seeders, and built secure CRUD operations.
- Integrated responsive frontend views with backend services and RESTful endpoints to support attendance, task, and performance tracking.
- Collaborated with senior developers on code reviews, debugging, and database query optimization.

FRONTEND DEVELOPER — **Afflictor** | Jan 2025 – Aug 2025 | Remote, Dubai, UAE

- Developed responsive and interactive e-commerce and web interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap, ensuring cross-browser compatibility and mobile-first responsiveness.
- Translated complex Figma UI/UX mockups and prototypes into clean, pixel-accurate, and user-friendly frontend layouts.
- Integrated frontend interfaces with backend APIs to enable dynamic content rendering and seamless client-server data flow.
- Optimized frontend assets and rendering performance, achieving fast page load times across desktop and mobile devices.
- Maintained clean, modular, and reusable frontend code adhering to modern web development standards.

FULL STACK DEVELOPER — **DoneSol Technologies** | Jan 2023 – Present | Hybrid, Islamabad

- Developed and maintained full-stack web applications, e-commerce storefronts, and corporate web platforms using React.js, Next.js, JavaScript, PHP, and relational databases.
- Built responsive, component-driven user interfaces and integrated backend services and REST APIs for seamless end-to-end functionality.
- Delivered feature enhancements, product catalog management, and database operations for live platforms including Eclat E-Commerce and Doctor Gadgets.
- Led functional Quality Assurance (QA) testing, systematic debugging, and technical SEO optimizations to improve site reliability and search visibility.
- Collaborated with cross-functional teams across the full software development lifecycle from requirement analysis to deployment.

PROFESSIONAL SKILLS

Problem Solving | Analytical Thinking | Communication | Team Collaboration | Adaptability | Quick Learning | Debugging | Requirement Analysis | Time Management | Continuous Learning | Attention to Detail

TECHNICAL SKILLS

Multi-Stack Development	MERN Stack (MongoDB, Express.js, React.js, Node.js) | PHP Laravel Stack (React.js / Next.js, PHP, Laravel, MySQL, REST APIs)
Frontend Development	JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, Responsive Web Development, API Integration, Figma (UI/UX)
Backend Development	Node.js, Express.js, PHP, Laravel, RESTful API Development, MVC Architecture, Authentication and Authorization (Laravel Sanctum, JWT), Eloquent ORM, Middleware, CRUD Operations, OOP
Databases	MySQL, MongoDB, Database Design, Migrations & Seeders
AI Tools & Development	Claude Code, Google Antigravity, Google Gemini Pro, AI-Assisted Coding, AI-Powered Code Generation, AI-Assisted Debugging, Vibe Coding, AI-Assisted Project Development, AI-Powered Development Workflows
Development Tools	Git, GitHub, Postman, Composer, VS Code, Axios

PROJECTS

Multi-Vendor E-Commerce & POS System **Tech Stack:** React.js, PHP, Laravel, MySQL, Laravel Sanctum, RESTful APIs, Axios, Bootstrap

- Built a full-stack multi-vendor e-commerce marketplace and Point of Sale (POS) platform featuring dedicated Vendor, Customer, and Website portals.
- Engineered Laravel Sanctum authentication, role-based vendor middleware, multi-step product creation, dynamic variation generation, brand/category CRUD, media management, and POS sales order tracking.

Food Order & Delivery Web Application **Tech Stack:** React.js, TypeScript, PHP, Laravel, MySQL, Laravel Sanctum, Tailwind CSS, REST APIs

- Developed an end-to-end food ordering and delivery system featuring decoupled React.js/TypeScript client interfaces and a modular Laravel API backend.
- Implemented dedicated authentication, admin management, and customer ordering workflows with secure token-based API communication and relational MySQL data modeling.

Quiz Master – Full-Stack MERN Platform **Tech Stack:** MongoDB, Express.js, React.js, Node.js (MERN), TypeScript, RESTful APIs, JWT Auth

- Created a full-stack interactive quiz platform enabling users to attempt quizzes, track real-time scores, and compete on dynamic leaderboards.
- Architected the Node.js/Express.js REST API backend with MongoDB for user authentication, quiz/question CRUD, and score calculation, paired with a responsive React.js frontend.

Ezitech iPortal – Enterprise RBAC Management System **Tech Stack:** PHP, Laravel, MySQL, Eloquent ORM, Blade, JavaScript, Bootstrap, MVC

- Developed a multi-layered enterprise management portal featuring hierarchical Role-Based Access Control (RBAC) for Admins, Managers, Supervisors, and Internees.
- Implemented project workflow tracking, intern attendance logs, and performance evaluation modules backed by Eloquent ORM and MySQL migrations.

Eclat E-Commerce & Doctor Gadgets Retail Platforms
Tech Stack: React.js, Next.js, JavaScript (ES6+), Relational Databases, Responsive UI, Technical SEO

- Contributed to full-stack feature development, reusable UI components, and product catalog management for live online retail storefronts.
- Conducted end-to-end functional QA testing, issue debugging, and performance/SEO optimizations to ensure high conversion and cross-device reliability.

EDUCATION

Bachelor of Science in Information Technology (BSIT) **2023 – 2026**
Virtual University, Lahore, Pakistan

Intermediate – FSC (ICS) Computer Science **2020 – 2022**
Gordon College, Rawalpindi, Pakistan

CERTIFICATIONS & LANGUAGES

- Full Stack Web Development Certificate – Udemy
- Web Development Certificate – eHunar (2024)
- WordPress Certificate – DigiSkills (2023)
- PHP / Laravel Internship Certificate – Eziline Software House (2026)
- C++ Programming Certificate – Cisco (2024)
- Search Engine Optimization (SEO) Certificate – DigiSkills (2023)

Languages: English (Fluent) | Urdu (Native)
